

SUPERIOR WIRELESS EMS

wav-e

**15 MIN
TOTAL BODY
WORKOUT**

STRICTLY WIRELESS

Wav-e industrial Bluetooth technology

Why bother with wires and electrodes when you can exercise and stimulate your muscles whilst performing dynamic exercises at the same time. The exclusive Wav-e Bluetooth belt is as durable and reliable as its rock solid connection so you can exercise freely and make your electro muscular stimulation sessions as energetic as you like.

The wireless system is the best way to take advantage of the benefits of Wav-e. Never mind your age or your level of fitness. Wav-e's Bluetooth technology will take you rapidly to your goals, shaping your body faster and more effectively.

Do you really need cables to get fit?

GET IN SHAPE IN ONLY 15 MINUTES A WEEK

Fitness is no longer a matter of time

Wav-e's innovative technology gives you the benefits of a toned and healthier body. The highly effective training sessions free up your time to enjoy the rest of life's activities.

Wav-e's electro stimulation works on multiple muscle groups simultaneously. Therefore it only takes 15 minutes a week to get the results and body you want. This kind of workout, although brief, provides a complete full body workout, saving you time and energy. Get fit without the stress, risk of injuries or unnecessary fatigue.

**SAVE
TIME**

**STAY
HEALTHY**
